LEGGEND TIPOLOGIA LEADER

Fiore smerigliato cat.1 (1st class grind leather) This quality of leather is grind, impressed and coloured to obtain a good soft surface with no faults. It is treated and given the finishing touch in Italy. A total absence of essences not allowed by European regulation (azo dye, formaldehyde, hexavalent chrome ...) is granted by a selection of admitted dyestuffs. This leather answers the colour rubbing test (> 500 dry frictions and > 150 wet friction)

Pelle crostina morbida CAT.2 (soft lather 2nd class) It is the layer below the "fiore" leather. In the same way as "fiore" it is grind, impressed and coloured. The "Crostina" isn't so soft as the 1st class but it has the same Italian workmanship and rubbing test.

Pelle crostina CAT.3 (soft lather 3rd class) It isn't Italian leather: Quality, treatments and tests doesn't follow the European standards but it is suitable for its competitive price and proper for different foreign countries

LEGEND COVERINGS

TP1= all leader cat.1 = smerigliato flower

TP2 = all leader cat.2 = crostina

PS1 = leader on the sitting cat.1 bands and behind synthetic

PS2 = leader on the sitting cat.2 bands and behind synthetic

PS3 = leader on the sitting cat.3 bands and behind synthetic

PC1 = leader cat.1 sitting and bands, behind synthetic

PC2 = leader cat.2 sitting and bands, behind synthetic

T/ALL. = fabric Aluminium

F/M = synthetic leader Mia

F/MFR = synthetic leader Mia flame retard
